

DD/A 75-4134

29 August 1975

NOTE FOR: John N. McMahon

SUBJECT : [REDACTED]

[REDACTED] commented as follows:

1. Cover: There are indications in the material that the project might go public. Bill emphasizes that Commo will have about 21 people rotating through this project who, if the project is public, would not be of use to Commo in any other overseas assignment. In general, he feels that going public needs more thorough consideration in terms of long range implications.

2. Planning Schedule: For some reason, PMCD staffing and salary planning document spreads seven telecommunications people through the organization. Bill proposes all seven telecom people should be shown at the [REDACTED] Field Headquarters Communications Center. The seven are:

- 1 Chief
- 5 Telecom Specialists
- 1 Tech

Under Operational Project [REDACTED] are not telecom specialists; they are merely [REDACTED] who may at most carry a walkie-talkie.

3. Communications Support: Paragraph 2c states a Commo requirement of 27 vehicles to be equipped with radios plus three spares. A note in the margin indicates only 15 to 20 vehicles with about 12 VHF radios. [REDACTED] feels this is a "chintzy" position to take in view of the overall cost of the program, and feels we should stick with the 27 vehicles and 30 radio units.
